Credits are personal to the member and are non transferable.			

'Golf Credit' members representing Rudding Park in official club matches will not need to spend their credits for those matches. Credits will be taken in all other golf events.

A member will lose their credits for any tee times booked which are not then played.

All credits should be used in the membership year they are purchased, however a maximum of 100 credits may be carried forward in to the next year providing a new annual membership is purchased before 1 March. These 100 credits are valid for the first two months of the new membership year only.
