EYEBROW PERMANENT MAKEUP

Eyebrows are a crucial feature as they shape and frame your face and will affect your overall appearance. PMU can solve many problems and give a more symmetric flattering finish. Depending on your natural hair growth, skin type and expectations will determine which style of brows are best for you. Rebecca has gained a prestigious title of Royal Artist for the globally recognised PhiBrows Academy and has spent years teaching the art to beginners and to advance working professionals in the skill.

All treatments are bespoke and individually designed for each client so if you are unsure on what is best for you, Rebecca will guide you.

All initial brow treatments include a consultation, first session and a second review session.

Microblading

MICROBLADING / HAIRSTROKES

Microblading is a technique performed using a hand tool with attached needles fused together in a linear grouping. This technique involves drawing individual, crisp hair strokes that gives very natural looking results. Alternatively, Hairstroke brows are performed using a single needle with a PMU device and the technique used is based on assessment of suitability on the skin type. Both hairstroke techniques are perfect for those who want to fully reshape, define or fill in gaps from over plucking. Microblading or Hairstroke technique can also benefit anyone who is experiencing hair loss or a lack of hair growth in the brows due to alopecia or cancer. This treatment is not best for those with oily, mature or delicate skins.

Powderbrows

POWDERBROWS

Growing in popularity is the Ombré Brow, this technique is used when the client would prefer a soft powder filled brow look, similar to applying brow powder. The pigment is lighter at the start of the brow, and gradually gets darker on the tail, which is why the technique is called Ombre. This method is great for Oily skin, holding the colour better. Brows look soft, natural and defined and suits clients of all ages. The Ombré brow can look strong and dark when first done, however once healed it fades in colour and reduces in size creating a soft pixilated finish.

Combination Brows

COMBINATION BROWS

Rebecca's Signature Brow is a combination of hair strokes and powder shading using a cosmetic tattooing machine to place pigment into the skin. This results in a soft natural slightly undone brow, similar to the on-trend fluffy brow style. Suitable for all skin types.

Microblading & Shading

HAIRSTROKES AND SHADING

A combination of hair strokes and shading creates a realistic 3D eyebrow. This technique is particularly effective for people with little to no hair. Most suited to dry skin types.

EYELINER PERMANENT MAKEUP

A simple but amazingly effective treatment tattooing across the natural lash line to give definition to the eyes and create a flattering classic or smokey effect wing.

This creates the illusion of thicker lashes and defining your eyes without the use of makeup.

This can be on the top and bottom of the eyelids depending on desired outcome.

CLASSIC / SMOKEY EFFECT

This is a perfect treatment for those who feel bare without make-up. Eyeliner will enhance the shape of your eyes giving definition, contour and fuller, thicker looking lashes. Ideal treatment for: Alopecia patients, Sporty types, Swimmers and those with busy schedules.

Upper Liner

To include the lower lashline, an additional fee of £50 will be required.

LASHLINE ENHANCEMENT

A semi-permanent line of definition through the upper and/or lower lashes shaded softly in black or dark brown. This is a very natural day to day look to give subtle emphasis.

Upper Liner

£295 including review session

£180 Refresh topup up to 18 months (existing clients only)

To include the lower lashline, an additional fee of £50 will be required.

LIPS PERMANENT MAKEUP

Lips are a sensual feature. Adding soft layers of colour to the lip will naturally enhance your appearance and confidence. Lips are a crucial part in looking youthful and healthy without applying your lipliner or colour everyday.

Over time, lips can lose volume, definition and colour. The border of your smile can start to get lost. With the help of permanent makeup we can restore the youth of your mouth by adding colour definition.

All lip treatments include a consultation, first session and a second review session.

SHEER LIPS

Soft tint of colour throughout the lips for a natural wash of colour and definition.

£395 including review session (New Clients)

£180 Refresh Top-Up up to 18 months later (Existing Clients only)

HD LIPS

Full saturation of colour to achieve high definition. A longer lasting 'lipstick' effect.

£425 including review session (New Clients)

£180 Refresh Top-Up up to 18 months later (Existing Clients only)
